

- Hello?
- Oh, hi, is that Bob?
- Yeah, who's this?
- It's Dan.
- Oh, hi Dan. Did you get my email?
- Yup, I've got the program for you. But the problem is our network's dead.
- You're kidding?
- Nope.
- But I need that listing now...
- Sure thing, let me read it out to you.
- Erm, okay then...
- Got a pen?
- Hang on... Yep, go for it.
- Right, here goes...
  
- hash symbol, exclamation mark forward slash usr forward slash bin slash
- What kind of slash?
- A forward slash.
- Right, remember to tell me which one.
- Oh yeah. env space python and a new line.
- Got it.
- pound symbol, space encoding colon space utf minus eight then a new line.
- Hang on, was that heyse?
- Nope, that was space.
- Alright.
- double quote quote
- What kind of quote?
- A double quote, quote
- What kind of quote?
- A double quote, then a new line.
- You what?
- It was: double quote quote
- What kind of quote?
- A double quote, quote
- What kind of quote?
- A double quote, then a new line.
- Come again?
- That was: double quote quote
- What kind of quote?
- A double quote, quote
- What kind of quote?
- A double quote, then a new line.
- Keep going.
- Phone with big P space It with upper case I space In dot with big I and then a new line.
- Sorry, what?
- I said: Phone with big P space It with upper case I space In dot with big I and then a new line.
- Was that wace?
- Nah, I said space.
- Was that glace?
- Nah, that was space.
- Carry on.
- An with big A space entry space for space National with big N space Novel with upper case N space Generation with capital G space Month with upper case M space starting round bracket, NaNoGenMo close parenthesis, with upper case N, N, G and M, space two oh one five dot and then a new line.
- Mhmm.
- The with capital T space plot colon space someone space needs space a space computer space program space but space the space network single quote s space down comma then a new line.
- Say that again.
- The with capital T space plot colon space someone space needs space a space computer space program space but space the space network single quote s space

down comma then a new line.

- Keep going.
- So space a space second space person space has space to space tediously space read space it space out space over space the space telephone fullstop and then a new line.
- Sorry, missed that bit.
- It went: So space a space second space person space has space to space tediously space read space it space out space over space the space telephone fullstop and then a new line.
- Carry on.
- Hilarity with capital H space ensues fullstop and then a new line.
- Say that again.
- Hilarity with capital H space ensues fullstop and then a new line.
- Can you repeat that?
- I said: Hilarity with capital H space ensues fullstop and then a new line.
- Keep going.
- quote
- What kind of quote?
- Double, quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. double quote then a new line.
- Yes.
- From space underscore underscore future underscore underscore space import space print underscore function comma space unicode underscore literals and then a new line.
- Can you repeat that?
- It went: From space underscore underscore future underscore underscore space import space print underscore function comma space unicode underscore literals and then a new line.
- Sorry, what?
- It went: From space underscore underscore future underscore underscore space import space print underscore function comma space unicode underscore literals and then a new line.
- Yup.
- Import space argparse then new line.
- Sorry, what?
- It was: Import space argparse then new line.
- Sorry, missed that bit.
- It was: Import space argparse then new line.
- Uh, what?
- I said: Import space argparse then new line.
- Er, did you just say qu?
- Nah, I said new.
- Uh, what?
- It went: Import space argparse then new line.
- Carry on.
- Import space inflect space space hashtag, space pip space install space inflect then new line.
- Yup.
- Import space pronouncing space space hash, space pip space install space pronouncing and a new line.
- Sorry, what?
- I said: Import space pronouncing space space hash, space pip space install space pronouncing and a new line.
- Say that again.
- It went: Import space pronouncing space space hash, space pip space install space pronouncing and a new line.
- Uh, what?
- I said: Import space pronouncing space space hash, space pip space install space pronouncing and a new line.
- Can you repeat that?
- I said: Import space pronouncing space space hash, space pip space install space pronouncing and a new line.

- Yes.  
- From space random space import space choice comma space random and a new line.  
- Uh, what?  
- It went: From space random space import space choice comma space random and a new line.  
- Carry on.  
- Import space re and a new line.  
- Come again?  
- It was: Import space re and a new line.  
- Did you say bray?  
- Nope, I said re.  
- Carry on.  
- then a new line.  
- Uh, what?  
- That was: then a new line.  
- Sorry, missed that bit.  
- I said: then a new line.  
- Yup.  
- hash symbol, space from space pprint space import space pprint and a new line.  
- Er, did you just say numb?  
- No, that was from.  
- Alright.  
- then new line.  
- Uh, what?  
- I said: then new line.  
- Carry on.  
- and then a new line.  
- Sorry, what?  
- It was: and then a new line.  
- Repeat that.  
- It went: and then a new line.  
- Sorry, what?  
- I said: and then a new line.  
- Yes.  
- Def space print underscore it opening round bracket, text close parenthesis, colon then a new line.  
- Did you say reopening?  
- No, it was opening.  
- Can you repeat that?  
- It went: Def space print underscore it opening round bracket, text close parenthesis, colon then a new line.  
- Sorry, what?  
- It was: Def space print underscore it opening round bracket, text close parenthesis, colon then a new line.  
- Alright.  
- OK so it begins with four spaces.  
- Hang on, was that door?  
- Nah, it was four.  
- Keep going.  
- quote  
- What kind of quote?  
- A double quote.  
- Right, remember to tell me which one.  
- Right, yeah, sorry. double quote quote  
- What kind of quote?  
- Double quote, space Windows with upper case W space cmd period exe space cannot space do space Unicode with upper case U space so space encode space first space double quote quote  
- What kind of quote?  
- Double quote, quote  
- What kind of quote?  
- Double quote, then new line.  
- Uh, what?  
- quote  
- What kind of quote?

- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. double quote quote
- What kind of quote?
- Double quote, space Windows with upper case W space cmd period exe space cannot space do space Unicode with upper case U space so space encode space first space double quote quote
- What kind of quote?
- Double quote, quote
- What kind of quote?
- Double quote, then new line.
- Uh, what?
- quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. double quote quote
- What kind of quote?
- Double quote, space Windows with upper case W space cmd period exe space cannot space do space Unicode with upper case U space so space encode space first space double quote quote
- What kind of quote?
- Double quote, quote
- What kind of quote?
- Double quote, then new line.
- Repeat that.
- It was: quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. double quote quote
- What kind of quote?
- Double quote, space Windows with upper case W space cmd period exe space cannot space do space Unicode with upper case U space so space encode space first space double quote quote
- What kind of quote?
- Double quote, quote
- What kind of quote?
- Double quote, then new line.
- Alright.
- hash symbol, space space space space space print open parenthesis, text fullstop encode opening parenthesis, quote
- What kind of quote?
- Single, utf minus eight single quote end round bracket, ending round bracket, then a new line.
- Yes.
- four spaces.
- Sorry, missed that bit.
- four spaces.
- Carry on.
- Print starting round bracket, text ending round bracket, and a new line.
- Hang on, was that astound?
- Nah, I said round.
- Yes.
- and a new line.
- Repeat that.
- It was: and a new line.
- Carry on.
- and a new line.
- You what?
- That was: and a new line.
- Was that threw?
- Nah, I said new.
- Aha.
- Def space percent underscore chance starting round bracket, percent close

parenthesis, colon then new line.

- Sorry, what?
- It was: Def space percent underscore chance starting round bracket, percent close parenthesis, colon then new line.
- Hang on, was that pou?
- No, I said new.
- Keep going.
- Then four spaces.
- Can you repeat that?
- I said: Then four spaces.
- Aha.
- Return space random opening round bracket, close round bracket, space less than space percent space slash
- What kind of slash?
- Forward space one oh zero period zero then a new line.
- Sorry, missed that bit.
- It went: Return space random opening round bracket, close round bracket, space less than space percent space slash
- What kind of slash?
- Forward space one oh zero period zero then a new line.
- Er, did you just say heyse?
- No, I said space.
- Sorry, what?
- It went: Return space random opening round bracket, close round bracket, space less than space percent space slash
- What kind of slash?
- Forward space one oh zero period zero then a new line.
- Sorry, missed that bit.
- That was: Return space random opening round bracket, close round bracket, space less than space percent space slash
- What kind of slash?
- Forward space one oh zero period zero then a new line.
- Can you repeat that?
- It went: Return space random opening round bracket, close round bracket, space less than space percent space slash
- What kind of slash?
- Forward space one oh zero period zero then a new line.
- Keep going.
- and a new line.
- Er, did you just say thickened?
- Nah, it was and.
- Sorry, missed that bit.
- and a new line.
- Repeat that.
- I said: and a new line.
- Can you repeat that?
- That was: and a new line.
- Got it.
- then new line.
- Uh, what?
- It was: then new line.
- Carry on.
- Def space load underscore file starting round bracket, the underscore filename ending parenthesis, colon then a new line.
- Say that again.
- Def space load underscore file starting round bracket, the underscore filename ending parenthesis, colon then a new line.
- Er, did you just say suh?
- No, it was the.
- Uh, what?
- Def space load underscore file starting round bracket, the underscore filename ending parenthesis, colon then a new line.
- Carry on.
- The next line begins with four spaces.
- You what?

- I said: The next line begins with four spaces.  
- Did you say vanduyne?  
- No, it was line.  
- Hang on, was that intertwine?  
- No, I said line.  
- Yup.  
- Try colon then new line.  
- Sorry, what?  
- I said: Try colon then new line.  
- Hang on, was that (left-paren?  
- No, I said then.  
- Uh, what?  
- It went: Try colon then new line.  
- Repeat that.  
- It was: Try colon then new line.  
- Come again?  
- Try colon then new line.  
- Keep going.  
- So we've got eight spaces at the start.  
- Hang on, was that katt?  
- Nope, I said at.  
- Mhmm.  
- With space open opening parenthesis, the underscore filename comma space quote  
- What kind of quote?  
- Single, r single quote end parenthesis, space as space f colon then a new  
line.  
- Was that embrace?  
- Nah, that was space.  
- Yes.  
- twelve spaces.  
- Can you repeat that?  
- I said: twelve spaces.  
- Got it.  
- Lines space equals space starting curly bracket, then new line.  
- Sorry, missed that bit.  
- I said: Lines space equals space starting curly bracket, then new line.  
- Can you repeat that?  
- It went: Lines space equals space starting curly bracket, then new line.  
- Aha.  
- OK so it begins with sixteen spaces.  
- You what?  
- It was: OK so it begins with sixteen spaces.  
- Hang on, was that finn's?  
- Nah, I said begins.  
- Mhmm.  
- Line fullstop decode open round bracket, quote  
- What kind of quote?  
- Single, utf dash eight single quote end parenthesis, space for space line  
space in space f closing curly bracket, and a new line.  
- Yup.  
- The next line begins with four spaces.  
- Come again?  
- It went: The next line begins with four spaces.  
- Come again?  
- The next line begins with four spaces.  
- Yup.  
- Except space IOError colon with capital I, O and E, and then a new line.  
- Uh, what?  
- I said: Except space IOError colon with capital I, O and E, and then a new  
line.  
- Carry on.  
- eight spaces.  
- Sorry, what?  
- I said: eight spaces.  
- Alright.

- Lines space equals sign space opening curly bracket, ending curly bracket,  
then new line.

- Did you say thine?

- Nah, it was sign.

- Yes.

- Then four spaces.

- Carry on.

- Return space lines and then a new line.

- You what?

- That was: Return space lines and then a new line.

- Er, did you just say chace?

- No, I said space.

- Got it.

- and then a new line.

- Can you repeat that?

- and then a new line.

- Got it.

- then a new line.

- Carry on.

- Def space start underscore call starting round bracket, close parenthesis,  
colon then a new line.

- Repeat that.

- Def space start underscore call starting round bracket, close parenthesis,  
colon then a new line.

- Got it.

- OK so it begins with four spaces.

- Can you repeat that?

- That was: OK so it begins with four spaces.

- Yup.

- Print opening round bracket, quote

- What kind of quote?

- A double quote, double quote quote

- What kind of quote?

- A double quote.

- Right, remember to tell me which one.

- Right, yeah, sorry. hyphen space Hello question mark, with upper case H and a  
new line.

- Uh, what?

- It was: Print opening round bracket, quote

- What kind of quote?

- A double quote, double quote quote

- What kind of quote?

- A double quote.

- Right, remember to tell me which one.

- Right, yeah, sorry. hyphen space Hello question mark, with upper case H and a  
new line.

- Aha.

- minus space Oh comma with big O space hi comma space is space that space Bob  
question mark, with big B then new line.

- Sorry, missed that bit.

- It was: minus space Oh comma with big O space hi comma space is space that  
space Bob question mark, with big B then new line.

- Yup.

- minus space Yeah comma with upper case Y space who quote

- What kind of quote?

- Single quote, s space this question mark, then new line.

- Can you repeat that?

- It went: minus space Yeah comma with upper case Y space who quote

- Carry on.
- Line space equal sign space line fullstop rstrip start round bracket, quote
- What kind of quote?
- Double, slash
- What kind of slash?
- Backward slash n double quote close parenthesis, then a new line.
- Aha.
- The next line begins with four spaces.
- Er, did you just say schorr?

- Nope, I said four.

- Got it.

- Return space len open parenthesis, line close round bracket, space dash space len open parenthesis, line period lstrip opening round bracket, close round bracket, ending round bracket, and then a new line.

- Hang on, was that koeppen?

- Nope, it was open.

- Sorry, missed that bit.

- That was: Return space len open parenthesis, line close round bracket, space dash space len open parenthesis, line period lstrip opening round bracket, close round bracket, ending round bracket, and then a new line.

- Er, did you just say sue?

- No, I said new.

- Carry on.

- then new line.

- Aha.

- and then a new line.

- Come again?

- and then a new line.

- Can you repeat that?

- That was: and then a new line.

- Yup.

- Then upper case start underscore templates space equal space open curly bracket, then a new line.

- Uh, what?

- It went: Then upper case start underscore templates space equal space open curly bracket, then a new line.

- Got it.

- The next line begins with four spaces.

- Sorry, what?

- It went: The next line begins with four spaces.

- Yup.

- double quote ok in caps space so space it space begins space with space { oh } space { one } dot quote

- What kind of quote?

- A double quote.

- Right, remember to tell me which one.

- Right, yeah, sorry. comma and then a new line.

- You what?

- It went: double quote ok in caps space so space it space begins space with space { oh } space { one } dot quote

- What kind of quote?

- A double quote.

- Right, remember to tell me which one.

- Right, yeah, sorry. comma and then a new line.

- Yup.

- So we've got four spaces at the start.

- You what?

- It was: So we've got four spaces at the start.

- You what?

- I said: So we've got four spaces at the start.

- Carry on.

- quote

- What kind of quote?

- A double quote.

- Right, remember to tell me which one.

- Right, yeah, sorry. The with upper case T space next space line space begins space with space { oh } space { one } fullstop quote

- What kind of quote?

- A double quote, comma then new line.

- Was that towe?

- Nah, that was oh.

- Mhmm.

- OK so it begins with four spaces.

- You what?

- It went: OK so it begins with four spaces.  
- Carry on.  
- double quote So with capital S space we single quote ve space got space { oh }  
space { one } space at space the space start dot quote  
- What kind of quote?  
- Double quote, comma then new line.  
- Sorry, what?  
- That was: double quote So with capital S space we single quote ve space got  
space { oh } space { one } space at space the space start dot quote  
- What kind of quote?  
- Double quote, comma then new line.  
- Alright.  
- So we've got four spaces at the start.  
- Sorry, missed that bit.  
- So we've got four spaces at the start.  
- Can you repeat that?  
- So we've got four spaces at the start.  
- Hang on, was that timor?  
- No, it was four.  
- Er, did you just say foxworthy?  
- No, that was the.  
- Yup.  
- quote  
- What kind of quote?  
- Double, Then with upper case T space { zero } space { one } dot quote  
- What kind of quote?  
- Double, comma then new line.  
- Er, did you just say rehn?  
- Nah, I said then.  
- Can you repeat that?  
- quote  
- What kind of quote?  
- Double, Then with upper case T space { zero } space { one } dot quote  
- What kind of quote?  
- Double, comma then new line.  
- Repeat that.  
- I said: quote  
- What kind of quote?  
- Double, Then with upper case T space { zero } space { one } dot quote  
- What kind of quote?  
- Double, comma then new line.  
- Can you repeat that?  
- That was: quote  
- What kind of quote?  
- Double, Then with upper case T space { zero } space { one } dot quote  
- What kind of quote?  
- Double, comma then new line.  
- Yes.  
- Then four spaces.  
- Sorry, what?  
- I said: Then four spaces.  
- Got it.  
- double quote { oh } space { one } period double quote comma and a new line.  
- Sorry, what?  
- That was: double quote { oh } space { one } period double quote comma and a  
new line.  
- Mhmm.  
- closing brace, and then a new line.  
- Say that again.  
- That was: closing brace, and then a new line.  
- Mhmm.  
- then a new line.  
- Er, did you just say shoe?  
- Nah, it was new.  
- You what?

- That was: then a new line.  
- Sorry, what?  
- I said: then a new line.  
- Got it.  
- Uh underscore what in caps space equals space open brace, then a new line.  
- Uh, what?  
- It went: Uh underscore what in caps space equals space open brace, then a new line.  
- Was that knapp's?  
- Nah, that was caps.  
- Carry on.  
- Then four spaces.  
- Uh, what?  
- I said: Then four spaces.  
- Aha.  
- double quote dash space Uh comma with upper case U space what question mark, quote  
- What kind of quote?  
- Double, comma then a new line.  
- Did you say trash?  
- No, that was dash.  
- Say that again.  
- That was: double quote dash space Uh comma with upper case U space what question mark, quote  
- What kind of quote?  
- Double, comma then a new line.  
- Yes.  
- OK so it begins with four spaces.  
- Come again?  
- I said: OK so it begins with four spaces.  
- Mhmm.  
- quote  
- What kind of quote?  
- A double quote, hyphen space Sorry comma with big S space missed space that space bit period double quote comma and then a new line.  
- Say that again.  
- I said: quote  
- What kind of quote?  
- A double quote, hyphen space Sorry comma with big S space missed space that space bit period double quote comma and then a new line.  
- Come again?  
- It was: quote  
- What kind of quote?  
- A double quote, hyphen space Sorry comma with big S space missed space that space bit period double quote comma and then a new line.  
- Got it.  
- The next line begins with four spaces.  
- Er, did you just say b'rith?  
- No, it was with.  
- Did you say smyth?  
- Nope, I said with.  
- Repeat that.  
- The next line begins with four spaces.  
- Say that again.  
- The next line begins with four spaces.  
- Hang on, was that espectador?  
- Nope, that was four.  
- Can you repeat that?  
- That was: The next line begins with four spaces.  
- Sorry, what?  
- The next line begins with four spaces.  
- Sorry, what?  
- That was: The next line begins with four spaces.  
- Got it.  
- quote

- What kind of quote?  
- Double quote, hyphen space Can with big C space you space repeat space that question mark, double quote comma and a new line.  
- You what?  
- It went: quote  
- What kind of quote?  
- Double quote, hyphen space Can with big C space you space repeat space that question mark, double quote comma and a new line.  
- Keep going.  
- So we've got four spaces at the start.  
- Did you say eave?  
- Nope, it was we've.  
- Can you repeat that?  
- It went: So we've got four spaces at the start.  
- You what?  
- It was: So we've got four spaces at the start.  
- Keep going.  
- quote  
- What kind of quote?  
- A double quote.

- Nope, I said capitals.

- Alright.

- four spaces.

- Come again?

- It was: four spaces.

- Mhmm.

- double quote single space quote double quote comma then new line.

- Hang on, was that hirayama?

- No, that was comma.

- Er, did you just say trouble?

- Nah, that was double.

- Mhmm.

- So we've got four spaces at the start.

- Sorry, what?

- It went: So we've got four spaces at the start.

- Carry on.

- quote

- What kind of quote?

- Double quote, single space quote quote

- What kind of quote?

- Double, comma and then a new line.

- You what?

- I said: quote

- What kind of quote?

- Double quote, single space quote quote

- What kind of quote?

- Double, comma and then a new line.

- Can you repeat that?

- It was: quote

- What kind of quote?

- Double quote, single space quote quote

- What kind of quote?

- Double, comma and then a new line.

- Come again?

- It was: quote

- What kind of quote?

- Double quote, single space quote quote

- What kind of quote?

- Double, comma and then a new line.

- Mhmm.

- Then four spaces.

- You what?

- It went: Then four spaces.

- Got it.

- quote

- What kind of quote?

- Double quote, single space quote quote

- What kind of quote?

- Double quote, comma and a new line.

- Say that again.

- I said: quote

- What kind of quote?

- Double quote, single space quote quote

- What kind of quote?

- Double quote, comma and a new line.

- Yes.

- four spaces.

- Got it.

- double quote quote backward slash n hyphen space What with capital W space kind space of space quote question mark, backward slash n dash space Single comma double quote comma with upper case S and a new line.

- You what?

- That was: double quote quote backward slash n hyphen space What with capital W space kind space of space quote question mark, backward slash n dash space Single comma double quote comma with upper case S and a new line.

- Aha.

- four spaces.

- Hang on, was that lenore?

- Nah, that was four.

- Did you say postwar?

- Nah, it was four.

- Er, did you just say galore?

- Nah, it was four.

- Keep going.

- quote

- What kind of quote?

- Double quote, quote slash

- What kind of slash?

- A backward slash.

- OK, remember there's a difference.

- Righto. n hyphen space What with upper case W space kind space of space quote question mark, slash

- What kind of slash?

- A backward slash.

- OK, remember there's a difference.

- Righto. n minus space Single with capital S space quote comma double quote comma then a new line.

- Sorry, what?

- quote

- What kind of quote?

- Double quote, quote slash

- What kind of slash?

- A backward slash.

- OK, remember there's a difference.

- Righto. n hyphen space What with upper case W space kind space of space quote question mark, slash

- What kind of slash?

- A backward slash.

- OK, remember there's a difference.

- Righto. n minus space Single with capital S space quote comma double quote comma then a new line.

- Aha.

- Then four spaces.

- Er, did you just say drawer?

- Nope, that was four.

- Yup.

- quote

- What kind of quote?

- Double, quote slash

- What kind of slash?

- Manchester to London, n hyphen space What with big W space kind space of space quote question mark, backward slash n dash space then capitalised a space single space quote comma quote

- What kind of quote?

- A double quote.

- Right, remember to tell me which one.

- Right, yeah, sorry. comma and a new line.

- Can you repeat that?

- I said: quote

- What kind of quote?

- Double, quote slash

- A backward slash.  
- OK, remember there's a difference.  
- Righto. n hyphen space What with upper case W space kind space of space slash question mark, slash  
- What kind of slash?  
- A backward slash.  
- OK, remember there's a difference.  
- Righto. n dash space Backward with big B space slash double quote comma then new line.  
- Repeat that.  
- That was: double quote slash slash  
- What kind of slash?  
- A backward slash.  
- OK, remember there's a difference.  
- Righto. n hyphen space What with upper case W space kind space of space slash question mark, slash  
- What kind of slash?  
- A backward slash.  
- OK, remember there's a difference.  
- Righto. n dash space Backward with big B space slash double quote comma then new line.  
- You what?  
- It was: double quote slash slash  
- What kind of slash?  
- A backward slash.  
- OK, remember there's a difference.  
- Righto. n hyphen space What with upper case W space kind space of space slash question mark, slash  
- What kind of slash?  
- A backward slash.  
- OK, remember there's a difference.  
- Righto. n dash space Backward with big B space slash double quote comma then new line.  
- Uh, what?  
- It was: double quote slash slash  
- What kind of slash?  
- A backward slash.  
- OK, remember there's a difference.  
- Righto. n hyphen space What with upper case W space kind space of space slash question mark, slash  
- What kind of slash?  
- A backward slash.  
- OK, remember there's a difference.  
- Righto. n dash space Backward with big B space slash double quote comma then new line.  
- Can you repeat that?  
- double quote slash slash  
- What kind of slash?  
- A backward slash.  
- OK, remember there's a difference.  
- Righto. n hyphen space What with upper case W space kind space of space slash question mark, slash  
- What kind of slash?  
- A backward slash.  
- OK, remember there's a difference.

- Righto. n dash space Backward with big B space slash double quote comma then new line.
- Say that again.
- It went: double quote slash slash
- What kind of slash?
- A backward slash.
- OK, remember there's a difference.
- Righto. n hyphen space What with upper case W space kind space of space slash question mark, slash
- What kind of slash?
- A backward slash.
- OK, remember there's a difference.
- Righto. n dash space Backward with big B space slash double quote comma then new line.
- Got it.
- Then four spaces.
- Yes.
- double quote slash backward slash n minus space What with capital W space kind space of space slash question mark, slash
- What kind of slash?
- A backward slash, n dash space a all capitals space backward space slash comma double quote comma and then a new line.
- Was that gama?
- Nah, that was comma.
- Sorry, missed that bit.
- I said: double quote slash backward slash n minus space What with capital W space kind space of space slash question mark, slash
- What kind of slash?
- A backward slash, n dash space a all capitals space backward space slash comma double quote comma and then a new line.
- Carry on.
- four spaces.
- Sorry, missed that bit.
- I said: four spaces.
- Repeat that.
- I said: four spaces.
- Aha.
- quote
- What kind of quote?
- Double quote, slash slash
- What kind of slash?
- A backward slash.
- OK, remember there's a difference.
- Righto. n minus space What with upper case W space kind space of space slash question mark, slash
- What kind of slash?
- Backward slash n hyphen space Manchester with big M space to space London comma double quote comma with capital L then a new line.
- Yes.
- OK so it begins with four spaces.
- You what?
- It went: OK so it begins with four spaces.
- Aha.
- quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. slash backward slash n dash space What with capital W space kind space of space slash question mark, slash
- What kind of slash?
- A backward slash.
- OK, remember there's a difference.
- Righto. n dash space then capitalised a space backward space slash comma quote
- What kind of quote?
- A double quote.

- Right, remember to tell me which one.
- Right, yeah, sorry. comma and then a new line.
- Carry on.
- four spaces.
- Sorry, missed that bit.
- four spaces.
- Er, did you just say d'or?
- Nah, I said four.
- Hang on, was that ashore?
- No, I said four.
- Yes.
- quote
- What kind of quote?
- Double quote, slash backward slash n minus space What with capital W space kind space of space slash question mark, slash
- What kind of slash?
- A backward slash.
- OK, remember there's a difference.
- Righto. n hyphen space then upper case a space backward space slash dot slash
- What kind of slash?
- Backward slash n hyphen space then capitalised ok comma space remember space double quote and then a new line.
- Can you repeat that?
- quote
- What kind of quote?
- Double quote, slash backward slash n minus space What with capital W space kind space of space slash question mark, slash
- What kind of slash?
- A backward slash.
- OK, remember there's a difference.
- Righto. n hyphen space then upper case a space backward space slash dot slash
- What kind of slash?
- Backward slash n hyphen space then capitalised ok comma space remember space double quote and then a new line.
- Mhmm.
- So we've got four spaces at the start.
- You what?
- So we've got four spaces at the start.
- Yup.
- double quote there quote
- What kind of quote?
- A single quote, s space a space difference period backward slash n dash space Righto fullstop double quote comma with big R then a new line.
- Sorry, missed that bit.
- It was: double quote there quote
- What kind of quote?
- A single quote, s space a space difference period backward slash n dash space Righto fullstop double quote comma with big R then a new line.
- Yes.
- end curly bracket, then new line.
- Sorry, missed that bit.
- It went: end curly bracket, then new line.
- Can you repeat that?
- It went: end curly bracket, then new line.
- Got it.
- and then a new line.
- Repeat that.
- It went: and then a new line.
- Keep going.
- then new line.
- Come again?
- It was: then new line.
- Carry on.
- Def space spacy start round bracket, text close round bracket, colon and then a new line.

- Was that kekst?  
- No, that was text.  
- Did you say drowned?  
- Nah, that was round.  
- Aha.  
- Then four spaces.  
- Keep going.  
- Return space quote  
- What kind of quote?  
- Double, space double quote space plus space text space plus space double quote  
space double quote and then a new line.  
- Come again?  
- That was: Return space quote  
- What kind of quote?  
- Double, space double quote space plus space text space plus space double quote  
space double quote and then a new line.  
- Hang on, was that trace?  
- Nope, I said space.  
- Got it.  
- then a new line.  
- Uh, what?  
- then a new line.  
- Carry on.  
- then new line.  
- Hang on, was that menn?  
- No, it was then.  
- Got it.  
- Def space remove underscore duplicate underscore spaces open parenthesis, text  
end parenthesis, colon and a new line.  
- Can you repeat that?  
- That was: Def space remove underscore duplicate underscore spaces open  
parenthesis, text end parenthesis, colon and a new line.  
- Say that again.  
- That was: Def space remove underscore duplicate underscore spaces open  
parenthesis, text end parenthesis, colon and a new line.  
- Er, did you just say favazza?  
- No, that was a.  
- Aha.  
- Then four spaces.  
- You what?  
- It was: Then four spaces.  
- Keep going.  
- Return space re fullstop sub opening round bracket, single quote space plus  
quote  
- What kind of quote?  
- Single quote, comma space single quote space quote  
- What kind of quote?  
- Single, comma space text closing parenthesis, then a new line.  
- Uh, what?  
- It was: Return space re fullstop sub opening round bracket, single quote space  
plus quote  
- What kind of quote?  
- Single quote, comma space single quote space quote  
- What kind of quote?  
- Single, comma space text closing parenthesis, then a new line.  
- Mhmm.  
- then a new line.  
- Did you say lire?  
- Nope, that was a.  
- Mhmm.  
- and then a new line.  
- Hang on, was that columbia?  
- Nah, I said a.  
- Can you repeat that?  
- It was: and then a new line.

- Say that again.

- It went: and then a new line.

- Alright.

- Def space upper underscore case underscore letters starting parenthesis, text closing parenthesis, colon then new line.

- Say that again.

- It was: Def space upper underscore case underscore letters starting parenthesis, text closing parenthesis, colon then new line.

- Yup.

- The next line begins with four spaces.

- Er, did you just say writhe?

- Nope, that was with.

- Mhmm.

- L space equals sign space starting brace, char space for space char space in space text space if space char period isupper start round bracket, ending parenthesis, ending brace, then new line.

- Alright.

- OK so it begins with four spaces.

- Aha.

- If space len opening parenthesis, l ending round bracket, space equals sign equals sign space oh colon and a new line.

- Alright.

- Then eight spaces.

- Yes.

- Return space None with big N and a new line.

- Come again?

- That was: Return space None with big N and a new line.

- Mhmm.

- The next line begins with four spaces.

- Repeat that.

- It was: The next line begins with four spaces.

- Hang on, was that meckes?

- No, it was next.

- Got it.

- Elif space len opening parenthesis, l close parenthesis, space equals equal space one colon then new line.

- Uh, what?

- It went: Elif space len opening parenthesis, l close parenthesis, space equals equal space one colon then new line.

- Keep going.

- eight spaces.

- Did you say conflate?

- Nope, I said eight.

- Come again?

- It was: eight spaces.

- Come again?

- That was: eight spaces.

- Yup.

- Return space quote

- What kind of quote?

- A double quote, dash space Hang with capital H space on comma space was space that space { oh } question mark, double quote comma and a new line.
- Carry on.
- twenty spaces.
- Hang on, was that clemente?
- No, that was twenty.
- Repeat that.
- It was: twenty spaces.
- Aha.
- close curly bracket, end round bracket, period format starting round bracket, choice opening parenthesis, rhymes close parenthesis, ending round bracket, ending round bracket, and then a new line.
- Yes.
- So we've got sixteen spaces at the start.
- Er, did you just say ertha?
- Nope, that was the.
- Yup.
- Print starting parenthesis, choice open parenthesis, opening curly bracket, and then a new line.
- Say that again.
- It went: Print starting parenthesis, choice open parenthesis, opening curly bracket, and then a new line.
- Carry on.
- So we've got twenty spaces at the start.
- Sorry, what?
- It was: So we've got twenty spaces at the start.
- You what?
- I said: So we've got twenty spaces at the start.
- Got it.
- quote
- What kind of quote?
- Double quote, dash space No comma with capital N space quote
- What kind of quote?
- A double quote, comma then a new line.
- Hang on, was that braaksma?
- No, I said a.
- Come again?
- quote
- What kind of quote?
- Double quote, dash space No comma with capital N space quote
- What kind of quote?
- A double quote, comma then a new line.
- Repeat that.
- quote
- What kind of quote?
- Double quote, dash space No comma with capital N space quote
- What kind of quote?
- A double quote, comma then a new line.
- Sorry, missed that bit.
- I said: quote
- What kind of quote?
- Double quote, dash space No comma with capital N space quote
- What kind of quote?
- A double quote, comma then a new line.
- Sorry, missed that bit.
- It went: quote
- What kind of quote?
- Double quote, dash space No comma with capital N space quote
- What kind of quote?
- A double quote, comma then a new line.
- Come again?

- It was: quote  
- What kind of quote?  
- Double quote, dash space No comma with capital N space quote  
- What kind of quote?  
- A double quote, comma then a new line.  
- Come again?  
- quote  
- What kind of quote?  
- Double quote, dash space No comma with capital N space quote  
- What kind of quote?  
- A double quote, comma then a new line.  
- Alright.  
- The next line begins with twenty spaces.  
- Hang on, was that vincente?  
- Nope, I said twenty.  
- Come again?  
- The next line begins with twenty spaces.  
- Come again?  
- I said: The next line begins with twenty spaces.  
- Yup.  
- quote  
- What kind of quote?  
- Double, dash space Nope comma with upper case N space quote  
- What kind of quote?  
- A double quote, comma then a new line.  
- Mhmm.  
- twenty spaces.  
- Yes.  
- quote  
- What kind of quote?  
- Double, dash space Nah comma with big N space double quote comma and a new line.  
- Uh, what?  
- quote  
- What kind of quote?  
- Double, dash space Nah comma with big N space double quote comma and a new line.  
- Mhmm.  
- sixteen spaces.  
- Sorry, what?  
- It went: sixteen spaces.  
- Yes.  
- ending curly bracket, close parenthesis, space plus space choice opening parenthesis, opening brace, then a new line.  
- Yes.  
- The next line begins with twenty spaces.  
- Repeat that.  
- It went: The next line begins with twenty spaces.  
- Repeat that.  
- It went: The next line begins with twenty spaces.  
- Uh, what?  
- It was: The next line begins with twenty spaces.  
- Repeat that.  
- That was: The next line begins with twenty spaces.  
- You what?  
- It went: The next line begins with twenty spaces.  
- Er, did you just say clyne?  
- Nope, that was line.  
- Come again?  
- That was: The next line begins with twenty spaces.  
- Er, did you just say sins?  
- No, I said begins.  
- Carry on.  
- Then quote  
- what kind of quote?

- a double quote.  
- right, remember to tell me which one.  
- right, yeah, sorry. i all in caps space said space quote  
- What kind of quote?  
- A double quote, comma then a new line.  
- Sorry, what?  
- Then quote  
- what kind of quote?  
- a double quote.  
- right, remember to tell me which one.  
- right, yeah, sorry. i all in caps space said space quote  
- What kind of quote?  
- A double quote, comma then a new line.  
- Mhmm.  
- So we've got twenty spaces at the start.  
- Come again?  
- It went: So we've got twenty spaces at the start.  
- Yup.  
- quote  
- What kind of quote?  
- A double quote.  
- Right, remember to tell me which one.  
- Right, yeah, sorry. it space was space double quote comma then new line.  
- Come again?  
- It went: quote  
- What kind of quote?  
- A double quote.  
- Right, remember to tell me which one.  
- Right, yeah, sorry. it space was space double quote comma then new line.  
- Aha.  
- twenty spaces.  
- Sorry, what?  
- It was: twenty spaces.  
- Got it.  
- quote  
- What kind of quote?  
- Double, that space was space quote  
- What kind of quote?  
- A double quote, comma and a new line.  
- Carry on.  
- OK so it begins with sixteen spaces.  
- Uh, what?  
- It went: OK so it begins with sixteen spaces.  
- Sorry, what?  
- That was: OK so it begins with sixteen spaces.  
- Sorry, missed that bit.  
- That was: OK so it begins with sixteen spaces.  
- Say that again.  
- OK so it begins with sixteen spaces.  
- You what?  
- I said: OK so it begins with sixteen spaces.  
- Can you repeat that?  
- It went: OK so it begins with sixteen spaces.  
- You what?  
- I said: OK so it begins with sixteen spaces.  
- Uh, what?  
- It was: OK so it begins with sixteen spaces.  
- Keep going.  
- ending brace, close parenthesis, space plus space missed space plus space  
double quote dot quote  
- What kind of quote?  
- A double quote.  
- Right, remember to tell me which one.  
- Right, yeah, sorry. closing parenthesis, and a new line.  
- Uh, what?

- It went: ending brace, close parenthesis, space plus space missed space plus space double quote dot quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. closing parenthesis, and a new line.
- Aha.
- then a new line.
- Er, did you just say beaubien?
- Nope, that was then.
- Carry on.
- OK so it begins with four spaces.
- You what?
- It was: OK so it begins with four spaces.
- Keep going.
- If space percent underscore chance starting round bracket, six oh end parenthesis, colon and then a new line.
- Uh, what?
- That was: If space percent underscore chance starting round bracket, six oh end parenthesis, colon and then a new line.
- Can you repeat that?
- It went: If space percent underscore chance starting round bracket, six oh end parenthesis, colon and then a new line.
- Sorry, missed that bit.
- I said: If space percent underscore chance starting round bracket, six oh end parenthesis, colon and then a new line.
- Got it.
- eight spaces.
- You what?
- It went: eight spaces.
- Yup.
- You underscore what opening round bracket, out ending parenthesis, and then a new line.
- Repeat that.
- That was: You underscore what opening round bracket, out ending parenthesis, and then a new line.
- Mhmm.
- and a new line.
- Was that weyand?
- Nah, that was and.
- Alright.
- then a new line.
- Sorry, missed that bit.
- It went: then a new line.
- Mhmm.
- Def space do underscore line opening parenthesis, line closing round bracket, colon then new line.
- Sorry, missed that bit.
- That was: Def space do underscore line opening parenthesis, line closing round bracket, colon then new line.
- Uh, what?
- It was: Def space do underscore line opening parenthesis, line closing round bracket, colon then new line.
- Alright.
- The next line begins with four spaces.
- Sorry, missed that bit.
- That was: The next line begins with four spaces.
- Carry on.
- Out space equals sign space None with upper case N and a new line.
- Hang on, was that scandia?
- No, that was a.
- Keep going.
- The next line begins with four spaces.
- Mhmm.
- Spaces space equals space leading underscore spaces open parenthesis, line

close round bracket, then new line.

- Repeat that.
- That was: Spaces space equals space leading underscore spaces open parenthesis, line close round bracket, then new line.
- Sorry, what?
- It went: Spaces space equals space leading underscore spaces open parenthesis, line close round bracket, then new line.
- Yup.
- four spaces.
- Yes.
- If space spaces colon then new line.
- Can you repeat that?
- That was: If space spaces colon then new line.
- Sorry, what?
- It went: If space spaces colon then new line.
- Keep going.
- The next line begins with eight spaces.
- Keep going.
- N space equals sign space leading underscore spaces starting round bracket, line close parenthesis, and a new line.
- Can you repeat that?
- It went: N space equals sign space leading underscore spaces starting round bracket, line close parenthesis, and a new line.
- You what?
- N space equals sign space leading underscore spaces starting round bracket, line close parenthesis, and a new line.
- Repeat that.
- It was: N space equals sign space leading underscore spaces starting round bracket, line close parenthesis, and a new line.
- Uh, what?
- It went: N space equals sign space leading underscore spaces starting round bracket, line close parenthesis, and a new line.
- Keep going.
- Then eight spaces.
- Sorry, missed that bit.
- That was: Then eight spaces.
- Yes.
- Out space equals sign space choice starting parenthesis, START underscore TEMPLATES closing parenthesis, fullstop format starting parenthesis, with upper case S, T, A, R, T, T, E, M, P, L, A, T, E and S, then new line.
- Aha.
- OK so it begins with twelve spaces.
- Sorry, what?
- It went: OK so it begins with twelve spaces.
- Carry on.
- P period number underscore to underscore words opening round bracket, n end round bracket, comma space p period plural open parenthesis, double quote space quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. comma space n end parenthesis, closing round bracket, then new line.
- Did you say trouble?
- Nah, it was double.
- Aha.
- So we've got eight spaces at the start.
- Come again?
- It was: So we've got eight spaces at the start.
- Yup.
- Line space equals sign space line opening brace, spaces colon ending curly bracket, and then a new line.
- Aha.
- Then eight spaces.
- Say that again.

- It was: Then eight spaces.  
- Yup.  
- Print starting round bracket, quote  
- What kind of quote?  
- Double quote, hyphen space double quote space plus space out close parenthesis, and then a new line.  
- Did you say renowned?  
- No, it was round.  
- Was that unrefined?  
- No, I said kind.  
- Say that again.  
- Print starting round bracket, quote  
- What kind of quote?  
- Double quote, hyphen space double quote space plus space out close parenthesis, and then a new line.  
- Carry on.  
- then new line.  
- Come again?  
- It went: then new line.  
- Keep going.  
- The next line begins with four spaces.  
- Was that finns?  
- Nah, I said begins.  
- Alright.  
- You underscore what start parenthesis, out end round bracket, then a new line.  
- Say that again.  
- That was: You underscore what start parenthesis, out end round bracket, then a new line.  
- Say that again.  
- It was: You underscore what start parenthesis, out end round bracket, then a new line.  
- Aha.  
- Then four spaces.  
- Yes.  
- If space out colon and a new line.  
- You what?  
- It was: If space out colon and a new line.  
- Keep going.  
- Then eight spaces.  
- Got it.  
- Print start round bracket, choice open parenthesis, GOT underscore IT end round bracket, closing round bracket, with upper case G, O, T, I and T, and a new line.  
- You what?  
- I said: Print start round bracket, choice open parenthesis, GOT underscore IT end round bracket, closing round bracket, with upper case G, O, T, I and T, and a new line.  
- Got it.  
- then a new line.  
- Say that again.  
- It went: then a new line.  
- Say that again.  
- That was: then a new line.  
- Sorry, what?  
- I said: then a new line.  
- Keep going.  
- four spaces.  
- Yup.  
- Words space equals sign space line period rstrip start round bracket, double quote backward slash n quote  
- What kind of quote?  
- A double quote, closing round bracket, period split start round bracket, quote  
- What kind of quote?  
- A double quote, space quote  
- What kind of quote?

- A double quote, ending parenthesis, and a new line.
- Yes.
- The next line begins with four spaces.
- Uh, what?
- I said: The next line begins with four spaces.
- Sorry, missed that bit.
- That was: The next line begins with four spaces.
- Yes.
- New underscore words space equals space start curly bracket, close brace, then a new line.
- Er, did you just say anchormen?
- Nope, it was then.
- Er, did you just say juana?
- No, it was a.
- Alright.
- four spaces.
- Sorry, missed that bit.
- That was: four spaces.
- You what?
- four spaces.
- Sorry, what?
- That was: four spaces.
- Mhmm.
- For space word space in space words colon and a new line.
- Repeat that.
- For space word space in space words colon and a new line.
- Yes.
- then new line.
- Sorry, missed that bit.
- It was: then new line.
- Come again?
- It went: then new line.
- Mhmm.
- eight spaces.
- Come again?
- I said: eight spaces.
- Say that again.
- I said: eight spaces.
- Carry on.
- pound, space print start round bracket, word closing parenthesis, and then a new line.
- Did you say hurd?
- No, I said word.
- Mhmm.
- and then a new line.
- Can you repeat that?
- and then a new line.
- Alright.
- OK so it begins with eight spaces.
- Was that asquith?
- Nah, I said with.
- Say that again.
- It was: OK so it begins with eight spaces.
- Yup.
- New underscore word space equals space quote
- What kind of quote?
- Double quote, double quote and then a new line.
- Yes.
- eight spaces.
- Aha.
- For space char space in space word colon and then a new line.
- Hang on, was that lace?
- Nope, it was space.
- Was that umland?
- Nah, I said and.

- Sorry, what?

- That was: For space char space in space word colon and then a new line.

- Yes.

- The next line begins with twelve spaces.

- Er, did you just say smith?

- Nope, it was with.

- Hang on, was that shelve?

- Nope, it was twelve.

- Got it.

- If space char space equal sign equal space quote

- What kind of quote?

- A double quote, comma quote

- What kind of quote?

- A double quote, colon and a new line.

- Hang on, was that percussive?

- Nope, it was of.

- Carry on.

- So we've got sixteen spaces at the start.

- Come again?

- I said: So we've got sixteen spaces at the start.

- Er, did you just say bodenstein?

- Nope, it was sixteen.

- Mhmm.

- New underscore word space plus equal sign space spacific open parenthesis,  
quote

- What kind of quote?

- A double quote.

- Right, remember to tell me which one.

- Right, yeah, sorry. comma and then a new line.  
- Got it.  
- OK so it begins with twenty spaces.  
- Repeat that.  
- It went: OK so it begins with twenty spaces.  
- Alright.  
- quote  
- What kind of quote?  
- Double, pound comma quote  
- What kind of quote?  
- Double, comma then new line.  
- Repeat that.  
- It went: quote  
- What kind of quote?  
- Double, pound comma quote  
- What kind of quote?  
- Double, comma then new line.  
- Mhmm.  
- So we've got twenty spaces at the start.  
- Hang on, was that cannot?  
- No, I said got.  
- Yup.  
- quote  
- What kind of quote?  
- A double quote.  
- Right, remember to tell me which one.  
- Right, yeah, sorry. hash space symbol comma double quote comma then a new line.  
- Got it.  
- The next line begins with twenty spaces.  
- Sorry, missed that bit.  
- That was: The next line begins with twenty spaces.  
- Got it.  
- quote  
- What kind of quote?  
- A double quote, pound space symbol comma quote  
- What kind of quote?  
- A double quote, comma then new line.  
- Can you repeat that?  
- I said: quote  
- What kind of quote?  
- A double quote, pound space symbol comma quote  
- What kind of quote?  
- A double quote, comma then new line.  
- Aha.  
- twenty spaces.  
- Er, did you just say benavente?  
- Nope, I said twenty.  
- Was that innocent?  
- Nah, I said twenty.  
- Yup.  
- quote  
- What kind of quote?  
- A double quote, hashtag comma quote  
- What kind of quote?  
- A double quote.  
- Right, remember to tell me which one.  
- Right, yeah, sorry. comma then new line.  
- Aha.  
- twenty spaces.

- Er, did you just say piacente?
- Nah, I said twenty.
- Got it.
- double quote hashtag dot slash
- What kind of slash?
- Manchester to London, n dash space Don quote
- What kind of quote?
- Single quote, t with capital D space call space it space a space hashtag  
fullstop backward slash n dash space ok period all capitals space double quote  
close brace, end parenthesis, ending round bracket, and then a new line.
- Keep going.
- The next line begins with twelve spaces.
- Er, did you just say dissects?
- Nah, I said next.
- Yes.
- Elif space char space equal equal space quote
- What kind of quote?
- Double, equal double quote colon and then a new line.
- Mhmm.
- The next line begins with sixteen spaces.
- Er, did you just say gwin's?
- No, it was begins.
- Repeat that.
- That was: The next line begins with sixteen spaces.
- Sorry, what?
- That was: The next line begins with sixteen spaces.
- Alright.
- New underscore word space plus equal space specify start round bracket, choice  
open parenthesis, opening brace, and a new line.
- Keep going.
- OK so it begins with twenty spaces.
- Say that again.
- I said: OK so it begins with twenty spaces.
- Yes.
- quote
- What kind of quote?
- A double quote, equals quote
- What kind of quote?

- Did you say cote?
- No, that was quote.
- Aha.
- Then sixteen spaces.
- Uh, what?
- Then sixteen spaces.
- Sorry, what?
- Then sixteen spaces.
- Hang on, was that fifteen?
- No, I said sixteen.
- Yes.
- New underscore word space plus equals space spacificy starting round bracket, choice open parenthesis, open brace, double quote zero quote
- What kind of quote?
- Double, comma space quote
- What kind of quote?
- Double quote, oh quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. closing brace, close round bracket, closing round bracket, then new line.
- Did you say pember?
- Nah, that was remember.
- Yup.
- OK so it begins with twelve spaces.

- Er, did you just say delve?

- Nah, it was twelve.

- Mhmm.

- Elif space char space equals equal sign space quote

- What kind of quote?

- A double quote.

- Right, remember to tell me which one.

- Right, yeah, sorry. one quote

- What kind of quote?

- Double quote, colon then new line.

- Er, did you just say sequel?

- Nope, that was equal.

- Was that lessee?

- No, it was me.

- Uh, what?

- I said: Elif space char space equals equal sign space quote

- What kind of quote?

- A double quote.

- Right, remember to tell me which one.

- Right, yeah, sorry. one quote

- What kind of quote?

- Double quote, colon then new line.

- Sorry, what?

- Elif space char space equals equal sign space quote

- What kind of quote?

- A double quote.

- Right, remember to tell me which one.

- Right, yeah, sorry. one quote

- What kind of quote?

- Double quote, colon then new line.

- Got it.

- The next line begins with sixteen spaces.

- Did you say perplexed?

- Nope, that was next.

- Hang on, was that ledwith?

- Nah, that was with.

- Was that sex?

- Nah, it was next.

- Aha.

- New underscore word space plus equals space spacificy start parenthesis, double quote one double quote close round bracket, then a new line.

- Say that again.

- It went: New underscore word space plus equals space spacificy start parenthesis, double quote one double quote close round bracket, then a new line.

- Mhmm.

- So we've got twelve spaces at the start.

- Say that again.

- It went: So we've got twelve spaces at the start.

- Mhmm.

- Elif space char space equals equals space quote

- What kind of quote?

- Double, two quote

- What kind of quote?

- Double, colon then new line.

- I said: sixteen spaces.
- Sorry, missed that bit.
- That was: sixteen spaces.
- Aha.
- New underscore word space plus equal sign space spacific start parenthesis, choice starting parenthesis, START ending parenthesis, with upper case S, T, A, R and T, space plus space choice start round bracket, PARENTHESIS end parenthesis, end round bracket, with big P, A, R, E, N, T, H, E, S, I and S, and a new line.
- Hang on, was that {left-brace?
- No, that was case.
- Got it.
- twelve spaces.
- Sorry, what?
- I said: twelve spaces.
- Come again?
- twelve spaces.
- Say that again.
- twelve spaces.
- Say that again.
- I said: twelve spaces.
- Repeat that.
- It went: twelve spaces.
- Uh, what?
- I said: twelve spaces.
- Got it.
- Elif space char space equal equals sign space quote
- What kind of quote?
- Double quote, ending round bracket, double quote colon and a new line.
- Yup.
- The next line begins with sixteen spaces.
- Sorry, what?
- The next line begins with sixteen spaces.
- You what?
- It was: The next line begins with sixteen spaces.
- Yup.
- New underscore word space plus equals sign space spacific opening round bracket, choice opening round bracket, CLOSE ending round bracket, with capital C, L, O, S and E, space plus space choice starting parenthesis, PARENTHESIS end round bracket, ending round bracket, with upper case P, A, R, E, N, T, H, E, S, I and S, then new line.
- Yup.
- So we've got twelve spaces at the start.
- Was that perceive?
- Nah, that was we've.

- Sorry, what?

- It went: So we've got twelve spaces at the start.

- Keep going.

- Elif space char space equal sign equals space quote

- What kind of quote?

- Double, opening brace, quote

- What kind of quote?

- Double quote, colon then new line.

- Can you repeat that?

- That was: Elif space char space equal sign equals space quote

- What kind of quote?

- Double, opening brace, quote

- What kind of quote?

- Double quote, colon then new line.

- Keep going.

- OK so it begins with sixteen spaces.

- Say that again.

- I said: OK so it begins with sixteen spaces.

- Did you say dith?

- Nope, I said with.

- Er, did you just say throw?

- Nope, it was so.

- Mhmm.

- New underscore word space plus equal space spacificy start round bracket, choice starting parenthesis, START ending round bracket, with big S, T, A, R and T, space plus space choice starting parenthesis, BRACE ending parenthesis, closing parenthesis, with capital B, R, A, C and E, and a new line.

- Er, did you just say replace?

- Nah, that was space.

- Yes.

- So we've got twelve spaces at the start.

- Uh, what?

- That was: So we've got twelve spaces at the start.

- Got it.

- Elif space char space equals equal sign space quote

- What kind of quote?

- Double quote, end brace, double quote colon then new line.

- Got it.

- Then sixteen spaces.

- Uh, what?

- That was: Then sixteen spaces.

- Er, did you just say laurene?

- Nope, that was sixteen.

- Yes.

- New underscore word space plus equals space spacificy start parenthesis, choice start round bracket, CLOSE ending round bracket, with big C, L, O, S and E, space plus space choice start parenthesis, BRACE closing parenthesis, ending round bracket, with big B, R, A, C and E, then new line.

- Was that banderas?

- Nope, that was plus.

- Repeat that.

- It was: New underscore word space plus equals space spacificy start parenthesis, choice start round bracket, CLOSE ending round bracket, with big C, L, O, S and E, space plus space choice start parenthesis, BRACE closing parenthesis, ending round bracket, with big B, R, A, C and E, then new line.

- Repeat that.

- It was: New underscore word space plus equals space spacificy start parenthesis, choice start round bracket, CLOSE ending round bracket, with big C, L, O, S and E, space plus space choice start parenthesis, BRACE closing parenthesis, ending round bracket, with big B, R, A, C and E, then new line.

- Yup.

- Then twelve spaces.

- Was that shelve?

- No, that was twelve.

- Keep going.

- Elif space char space equals equals sign space double quote start angle bracket, quote  
- What kind of quote?  
- A double quote.  
- Right, remember to tell me which one.  
- Right, yeah, sorry. colon then a new line.  
- Repeat that.  
- I said: Elif space char space equals equals sign space double quote start angle bracket, quote  
- What kind of quote?  
- A double quote.

- Yup.  
- OK so it begins with sixteen spaces.  
- Uh, what?  
- I said: OK so it begins with sixteen spaces.  
- Mhmm.  
- New underscore word space plus equal sign space spacific open round bracket, choice open round bracket, and then a new line.  
- Hang on, was that deface?  
- Nah, I said space.  
- Sorry, what?  
- I said: New underscore word space plus equal sign space spacific open round bracket, choice open round bracket, and then a new line.  
- You what?  
- That was: New underscore word space plus equal sign space spacific open round bracket, choice open round bracket, and then a new line.  
- Repeat that.  
- It was: New underscore word space plus equal sign space spacific open round bracket, choice open round bracket, and then a new line.  
- Keep going.  
- twenty spaces.  
- Sorry, what?  
- twenty spaces.  
- Yup.  
- open curly bracket, double quote less space than quote  
- What kind of quote?  
- Double quote, comma space choice open round bracket, START close round bracket, with big S, T, A, R and T, space plus space choice start round bracket, CHEVRON close round bracket, close curly bracket, ending parenthesis, end parenthesis, with upper case C, H, E, V, R, O and N, then a new line.  
- Did you say neverland?  
- No, that was and.  
- Did you say reopen?  
- Nope, that was open.  
- Carry on.  
- OK so it begins with twelve spaces.  
- Say that again.  
- It was: OK so it begins with twelve spaces.  
- Sorry, what?  
- That was: OK so it begins with twelve spaces.  
- Yes.  
- Elif space char space equals equal space double quote greater than double quote colon then new line.  
- Did you say dolan?  
- No, I said colon.  
- Say that again.

- I said: Elif space char space equals equal space double quote greater than double quote colon then new line.

- Aha.

- sixteen spaces.

- Can you repeat that?

- That was: sixteen spaces.

- Yup.

- New underscore word space plus equals sign space spacific starting parenthesis, choice open parenthesis, opening brace, and a new line.

- You what?

- I said: New underscore word space plus equals sign space spacific starting parenthesis, choice open parenthesis, opening brace, and a new line.

- You what?

- It was: New underscore word space plus equals sign space spacific starting parenthesis, choice open parenthesis, opening brace, and a new line.

- Got it.

- twenty spaces.

- Say that again.

- It was: twenty spaces.

- Say that again.

- It went: twenty spaces.

- Aha.

- quote

- What kind of quote?

- Double quote, greater space than quote

- What kind of quote?

- Double, comma space choice open round bracket, CLOSE ending round bracket, with capital C, L, O, S and E, space plus space choice start parenthesis, CHEVRON end round bracket, closing brace, close round bracket, ending round bracket, with upper case C, H, E, V, R, O and N, then a new line.

- Come again?

- quote

- What kind of quote?

- Double quote, greater space than quote

- What kind of quote?

- Double, comma space choice open round bracket, CLOSE ending round bracket, with capital C, L, O, S and E, space plus space choice start parenthesis, CHEVRON end round bracket, closing brace, close round bracket, ending round bracket, with upper case C, H, E, V, R, O and N, then a new line.

- Yup.

- OK so it begins with twelve spaces.

- Can you repeat that?

- That was: OK so it begins with twelve spaces.

- Got it.

- Else colon and a new line.

- Sorry, what?

- Else colon and a new line.

- Er, did you just say shiu?

- No, it was new.

- Got it.

- sixteen spaces.

- Can you repeat that?

- sixteen spaces.

- Alright.

- New underscore word space plus equals sign space char then a new line.

- Yup.

- and then a new line.

- Uh, what?

- and then a new line.

- Yup.

- eight spaces.

- Repeat that.

- I said: eight spaces.

- Come again?

- It went: eight spaces.

- Mhmm.

- If space word period isupper start round bracket, ending round bracket, colon then new line.

- Uh, what?

- If space word period isupper start round bracket, ending round bracket, colon then new line.

- Sorry, what?

- It went: If space word period isupper start round bracket, ending round bracket, colon then new line.

- Mhmm.

- Then twelve spaces.

- Keep going.

- New underscore word space equals sign space choice starting round bracket, starting brace, and a new line.

- Uh, what?

- I said: New underscore word space equals sign space choice starting round bracket, starting brace, and a new line.

- Can you repeat that?

- New underscore word space equals sign space choice starting round bracket, starting brace, and a new line.

- Sorry, missed that bit.

- It was: New underscore word space equals sign space choice starting round bracket, starting brace, and a new line.

- Yes.

- sixteen spaces.

- You what?

- It was: sixteen spaces.

- Double, then space { zero } space all space in space caps double quote close brace, end round bracket, fullstop format start parenthesis, new underscore word period lower opening parenthesis, close round bracket, close round bracket, then a new line.  
- Hang on, was that bass?  
- Nope, I said space.  
- Hang on, was that kovalyov?  
- No, I said of.  
- Yup.  
- eight spaces.  
- Can you repeat that?  
- eight spaces.  
- Come again?  
- I said: eight spaces.  
- Yes.  
- Else colon then a new line.  
- Was that parazonia?  
- No, that was a.  
- Aha.  
- twelve spaces.  
- Sorry, what?  
- I said: twelve spaces.  
- Alright.  
- Uppers space equals sign space upper underscore case underscore letters starting parenthesis, word end round bracket, and then a new line.  
- Mhmm.  
- OK so it begins with twelve spaces.  
- Hang on, was that ins?  
- Nah, I said begins.  
- Was that shelve?  
- Nah, it was twelve.  
- Yes.  
- If space uppers colon then new line.  
- Sorry, missed that bit.  
- It went: If space uppers colon then new line.  
- Say that again.  
- It went: If space uppers colon then new line.  
- Mhmm.  
- sixteen spaces.  
- Uh, what?  
- It was: sixteen spaces.  
- Alright.  
- hash, space Mixed with big M space case and a new line.  
- Hang on, was that withdrew?  
- Nah, I said new.  
- Yup.  
- sixteen spaces.

- Uh, what?

- I said: sixteen spaces.

- Come again?

- sixteen spaces.

- Say that again.

- That was: sixteen spaces.

- Sorry, what?

- It was: sixteen spaces.

- Yes.

- New underscore word space plus equal space choice start parenthesis, open curly bracket, and then a new line.

- Can you repeat that?

- I said: New underscore word space plus equal space choice start parenthesis, open curly bracket, and then a new line.

- Alright.

- Then twenty spaces.

- Did you say girgenti?

- No, it was twenty.

- Come again?

- I said: Then twenty spaces.

- Come again?

- That was: Then twenty spaces.

- Repeat that.

- It was: Then twenty spaces.

- Mhmm.

- double quote space with space capital space quote

- What kind of quote?

- Double, comma space double quote space with space upper space case space double quote comma space quote

- What kind of quote?

- A double quote.

- Right, remember to tell me which one.

- Right, yeah, sorry. space with space big space quote

- What kind of quote?

- A double quote.

- Right, remember to tell me which one.

- Right, yeah, sorry. end brace, and a new line.

- Can you repeat that?

- It was: double quote space with space capital space quote

- I said: then a new line.
- Come again?
- That was: then a new line.
- Keep going.
- The next line begins with eight spaces.
- Come again?
- The next line begins with eight spaces.
- Can you repeat that?
- That was: The next line begins with eight spaces.
- Repeat that.
- The next line begins with eight spaces.
- Hang on, was that prorated?
- Nah, I said eight.
- Uh, what?
- It went: The next line begins with eight spaces.
- Aha.
- Word space equal sign space new underscore word and then a new line.
- Got it.
- then new line.
- Yes.
- Then eight spaces.
- Keep going.
- New underscore words dot append open round bracket, word ending parenthesis, and then a new line.
- Er, did you just say nor?
- Nope, it was underscore.
- Hang on, was that sdn?
- No, I said then.
- Got it.
- then a new line.
- Can you repeat that?
- It was: then a new line.
- Keep going.
- OK so it begins with four spaces.
- Say that again.
- I said: OK so it begins with four spaces.
- Yup.
- Out space equals space double quote space space space double quote period join opening parenthesis, new underscore words close round bracket, space plus space choice open round bracket, starting brace, and then a new line.
- You what?
- Out space equals space double quote space space space double quote period join opening parenthesis, new underscore words close round bracket, space plus space choice open round bracket, starting brace, and then a new line.
- Carry on.
- Then eight spaces.
- Did you say aydt?
- Nope, it was eight.
- Mhmm.
- double quote space and space a space new space line double quote comma then a new line.
- Yes.
- The next line begins with eight spaces.
- You what?
- The next line begins with eight spaces.
- Sorry, what?
- The next line begins with eight spaces.
- Mhmm.
- double quote space then space a space new space line double quote comma then a new line.
- Come again?

- It was: double quote space then space a space new space line double quote comma then a new line.
- Repeat that.
- That was: double quote space then space a space new space line double quote comma then a new line.
- Er, did you just say aeroplane?
- Nah, it was new.
- Carry on.
- Then eight spaces.
- Can you repeat that?
- It went: Then eight spaces.
- Carry on.
- double quote space then space new space line quote
- What kind of quote?
- Double quote, comma and then a new line.
- Sorry, what?
- I said: double quote space then space new space line quote
- What kind of quote?
- Double quote, comma and then a new line.
- Say that again.
- I said: double quote space then space new space line quote
- What kind of quote?
- Double quote, comma and then a new line.
- You what?
- That was: double quote space then space new space line quote
- What kind of quote?

- Come again?
- It went: The next line begins with four spaces.
- Er, did you just say supine?
- No, that was line.
- Can you repeat that?
- It went: The next line begins with four spaces.
- You what?
- It went: The next line begins with four spaces.
- Mhmm.
- If space out colon and then a new line.
- Can you repeat that?
- I said: If space out colon and then a new line.
- Er, did you just say vigna?
- No, I said a.
- Aha.
- Then eight spaces.
- Did you say interrelate?
- Nope, that was eight.
- Yes.
- Print opening round bracket, choice opening parenthesis, GOT underscore IT end round bracket, end round bracket, with big G, O, T, I and T, then a new line.
- Yup.
- and then a new line.
- Hang on, was that hougland?
- Nope, it was and.
- Say that again.
- I said: and then a new line.
- Got it.
- and a new line.
- Er, did you just say mailloux?
- Nah, that was new.
- Got it.
- Def space do underscore call open round bracket, lines end round bracket, colon then new line.
- Got it.
- OK so it begins with four spaces.
- You what?
- OK so it begins with four spaces.
- Sorry, missed that bit.
- OK so it begins with four spaces.
- Got it.

- For space line space in space lines colon and a new line.  
- You what?  
- I said: For space line space in space lines colon and a new line.  
- Yes.  
- So we've got eight spaces at the start.  
- Sorry, missed that bit.  
- I said: So we've got eight spaces at the start.  
- Aha.  
- Do underscore line starting parenthesis, line close parenthesis, then a new line.  
- Er, did you just say engross?  
- Nah, it was close.  
- Come again?  
- That was: Do underscore line starting parenthesis, line close parenthesis, then a new line.  
- Did you say smarting?  
- No, that was starting.  
- Come again?  
- That was: Do underscore line starting parenthesis, line close parenthesis, then a new line.  
- Mhmm.  
- and a new line.  
- Alright.  
- and a new line.  
- Hang on, was that zue?  
- Nope, I said new.  
- Say that again.  
- I said: and a new line.  
- Alright.  
- If space underscore underscore name underscore underscore space equal sign equals space quote  
- What kind of quote?  
- Double, underscore underscore main underscore underscore quote  
- What kind of quote?  
- Double quote, colon then a new line.  
- Was that unlined?  
- Nah, it was kind.  
- Can you repeat that?  
- If space underscore underscore name underscore underscore space equal sign equals space quote  
- What kind of quote?  
- Double, underscore underscore main underscore underscore quote  
- What kind of quote?  
- Double quote, colon then a new line.  
- Sorry, what?  
- I said: If space underscore underscore name underscore underscore space equal sign equals space quote  
- What kind of quote?  
- Double, underscore underscore main underscore underscore quote  
- What kind of quote?  
- Double quote, colon then a new line.  
- Alright.  
- Then four spaces.  
- Yes.  
- Parser space equal sign space argparse period ArgumentParser opening parenthesis, with capital A and P, then a new line.  
- Did you say sven?  
- Nah, that was then.  
- You what?  
- Parser space equal sign space argparse period ArgumentParser opening parenthesis, with capital A and P, then a new line.  
- Can you repeat that?  
- It was: Parser space equal sign space argparse period ArgumentParser opening parenthesis, with capital A and P, then a new line.  
- Can you repeat that?

- Parser space equal sign space argparse period ArgumentParser opening parenthesis, with capital A and P, then a new line.
- Sorry, missed that bit.
- That was: Parser space equal sign space argparse period ArgumentParser opening parenthesis, with capital A and P, then a new line.
- Can you repeat that?
- I said: Parser space equal sign space argparse period ArgumentParser opening parenthesis, with capital A and P, then a new line.
- Say that again.
- It was: Parser space equal sign space argparse period ArgumentParser opening parenthesis, with capital A and P, then a new line.
- Alright.
- eight spaces.
- Say that again.
- It was: eight spaces.
- Got it.
- Description equal quote
- What kind of quote?
- Double quote, Generate with capital G space a space dialogue space of space a space program space listing space read space out space over space quote
- What kind of quote?
- Double, and a new line.
- Er, did you just say chace?
- No, that was space.
- Mhmm.
- Then twenty spaces.
- Sorry, what?
- That was: Then twenty spaces.
- Can you repeat that?
- That was: Then twenty spaces.
- Alright.
- quote
- What kind of quote?
- A double quote, the space telephone period double quote comma and then a new line.
- Hang on, was that remote?
- Nah, I said quote.
- Yes.
- So we've got eight spaces at the start.
- Keep going.
- Formatter underscore class equals sign argparse fullstop  
ArgumentDefaultsHelpFormatter ending round bracket, with upper case A, D, H and F, and then a new line.
- Repeat that.
- It went: Formatter underscore class equals sign argparse fullstop  
ArgumentDefaultsHelpFormatter ending round bracket, with upper case A, D, H and F, and then a new line.
- Can you repeat that?
- It was: Formatter underscore class equals sign argparse fullstop  
ArgumentDefaultsHelpFormatter ending round bracket, with upper case A, D, H and F, and then a new line.
- Sorry, missed that bit.
- That was: Formatter underscore class equals sign argparse fullstop  
ArgumentDefaultsHelpFormatter ending round bracket, with upper case A, D, H and F, and then a new line.
- Uh, what?
- Formatter underscore class equals sign argparse fullstop  
ArgumentDefaultsHelpFormatter ending round bracket, with upper case A, D, H and F, and then a new line.
- Yup.
- four spaces.
- Mhmm.
- Parser period add underscore argument opening parenthesis, then new line.
- Sorry, missed that bit.
- It was: Parser period add underscore argument opening parenthesis, then new

line.

- Repeat that.
- That was: Parser period add underscore argument opening parenthesis, then new line.
- Uh, what?
- I said: Parser period add underscore argument opening parenthesis, then new line.
- Did you say .period?
- Nah, I said period.
- Yup.
- The next line begins with eight spaces.
- Say that again.
- The next line begins with eight spaces.
- Aha.
- quote
- What kind of quote?
- A single quote, hyphen i single quote comma space quote
- What kind of quote?
- Single quote, dash hyphen infile quote
- What kind of quote?
- Single, comma space default equal quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. phonecall period py double quote comma and then a new line.
- Er, did you just say fransch?
- Nope, I said dash.
- You what?
- It was: quote
- What kind of quote?
- A single quote, hyphen i single quote comma space quote
- What kind of quote?
- Single quote, dash hyphen infile quote
- What kind of quote?
- Single, comma space default equal quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. phonecall period py double quote comma and then a new line.
- Got it.
- So we've got eight spaces at the start.
- Say that again.
- That was: So we've got eight spaces at the start.
- Er, did you just say strait?
- Nope, it was eight.
- Aha.
- Help equals double quote Input with big I space file double quote close parenthesis, then new line.
- Did you say embrace?
- No, it was space.
- Er, did you just say redouble?
- No, it was double.
- Got it.
- Then four spaces.
- Sorry, missed that bit.
- I said: Then four spaces.
- You what?
- That was: Then four spaces.
- Yes.
- Args space equals sign space parser period parse underscore args opening round bracket, closing round bracket, then new line.
- Can you repeat that?
- I said: Args space equals sign space parser period parse underscore args

opening round bracket, closing round bracket, then new line.

- Mhmm.
- and a new line.
- Did you say stew?
- Nope, it was new.
- Was that threw?
- No, it was new.
- Got it.
- four spaces.
- Say that again.
- I said: four spaces.
- Aha.
- hash symbol, space quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. Unit with big U space tests quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. then new line.
- Can you repeat that?
- That was: hash symbol, space quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. Unit with big U space tests quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. then new line.
- Come again?
- It went: hash symbol, space quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. Unit with big U space tests quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. then new line.
- Repeat that.
- It went: hash symbol, space quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. Unit with big U space tests quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. then new line.
- Did you say crests?
- Nope, that was tests.
- Repeat that.
- I said: hash symbol, space quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. Unit with big U space tests quote
- What kind of quote?
- A double quote.
- Right, remember to tell me which one.
- Right, yeah, sorry. then new line.
- Mhmm.
- four spaces.

- Got it.

- Assert space upper underscore case underscore letters start round bracket, quote

- What kind of quote?

- Double, abc quote

- What kind of quote?

- Double, closing parenthesis, space is space None with upper case N then new line.

- Carry on.

- four spaces.

- Was that sedor?

- Nope, I said four.

- Carry on.

- Assert space upper underscore case underscore letters open round bracket, quote

- What kind of quote?

- Double, pound symbol, double quote end parenthesis, space is space None with capital N and then a new line.

- Did you say koeppen?

- Nope, I said open.

- Hang on, was that opined?

- No, that was kind.

- Yup.

- So we've got four spaces at the start.

- You what?

- It was: So we've got four spaces at the start.

- Mhmm.

- Assert space upper underscore case underscore letters start round bracket, double quote hashtag.

- Don't call it a hashtag.

- OK. space abc double quote close round bracket, space is space None with big N then a new line.

- Uh, what?

- That was: Assert space upper underscore case underscore letters start round bracket, double quote hashtag.

- Don't call it a hashtag.

- OK. space abc double quote close round bracket, space is space None with big N then a new line.

- Sorry, missed that bit.

- It was: Assert space upper underscore case underscore letters start round bracket, double quote hashtag.

- Don't call it a hashtag.

- OK. space abc double quote close round bracket, space is space None with big N then a new line.

- Er, did you just say resound?

- No, that was round.

- Aha.

- So we've got four spaces at the start.

- Say that again.

- So we've got four spaces at the start.

- Keep going.

- Assert space upper underscore case underscore letters open parenthesis, quote

- It went: hash symbol, space space space space space print open round bracket,  
lines end round bracket, and a new line.  
- Sorry, what?  
- It went: hash symbol, space space space space space print open round bracket,  
lines end round bracket, and a new line.  
- Keep going.  
- four spaces.  
- Come again?  
- four spaces.  
- Was that bator?  
- Nope, that was four.  
- Sorry, what?  
- That was: four spaces.  
- Come again?  
- I said: four spaces.  
- Got it.  
- Start underscore call start round bracket, closing parenthesis, and a new  
line.  
- Come again?  
- Start underscore call start round bracket, closing parenthesis, and a new  
line.  
- Alright.  
- The next line begins with four spaces.  
- Come again?  
- It was: The next line begins with four spaces.  
- Er, did you just say b'rith?  
- Nah, I said with.  
- Alright.  
- Do underscore call opening round bracket, lines closing round bracket, then  
new line.  
- Did you say (paren?  
- Nah, it was then.  
- Mhmm.  
- OK so it begins with four spaces.  
- Keep going.  
- End underscore call open round bracket, ending round bracket, and then a new  
line.  
- Repeat that.  
- It went: End underscore call open round bracket, ending round bracket, and  
then a new line.  
- Carry on.  
- then new line.  
- Repeat that.  
- then new line.  
- Alright.  
- hash, space End with capital E space of space file and a new line.  
- You what?  
- It went: hash, space End with capital E space of space file and a new line.  
- Yes.  
- OK, that's the end.  
- That's it?  
- Yup.  
- All of it?  
- Yes.  
- Phew, what a relief! I'm not going to do that again!  
- Yeah, me neither.  
- Alright, thanks again, see you later Dan.  
- Cheers Bob, bye then!  
- But I might call you back if it doesn't compile. Is that ok Dan? Dan...??  
Dan?! Dan! DAN!
